

# SUMMER PASS

Up to 1-2 Hours Per Day | Multiple Days Per Week | 21 Total Hours of Tutoring

## Lowest Hourly Rate

Summer camps have gotten expensive, and you need to keep your child progressing academically (the past few years have been hard from a learning perspective). But how can you give the academic boost they need yet still make it affordable?

**The Summer Pass is your answer.**

This flexible option will help your child catch up, get ahead, and stay ahead.

## 1-2 Hours Per Day

Our Summer Pass allows for 1 to 2 hours per day, multiple days per week. Not enough to burn students out but enough to make significant progress. We want all of our students to start the next school year off successfully.

## 21 Total Hours

The Summer Pass allows for 21 hours of tutoring from June 1st until August 31st. Hours are for all subjects and all grade levels.

## Quantity & Quality

Summer educational programs can be one of the greatest learning environments for your child, and if you had control over the schedule and content, you could create a summer your child will benefit from.

*But can you really get rigorous learning without a rigorous schedule?*

**Now you can pick the subject. Pick the days. Pick the total number of hours for the summer only at Engenius Learning's Summer Flex Camps.**

Σngenius Learning Center provides the setting and expertise to develop and retain reading, writing, and math skills over the summer months. With our incredible Summer Pass offer, your child can work up to 21 hours this summer to catch up on one or more subjects. For those who want enrichment help, you can break the 21 hours into several different subjects to be ready for the next academic year.

A successful summer spent tutoring can help your child return to school in the fall with increased confidence and much improved skills.

Σngenius summer students can come up to **21 hours** between **June 1st and August 31st** at a rate under **\$50 per hour** (1 - 2 hours per day maximum). *The Summer Pass costs just \$995 and is the best option for your student this summer.*

## Jump Start Classes

Our Jump Start classes are exactly what they sound like: a way to get your child a **big advantage** when it comes to coursework. We offer these courses in all math, science, and foreign language classes.

## Test Prep

The ACT and SAT both require critical reading skills. Don't settle for a substandard test prep program that does not improve the core skills tested. Our ACT and SAT Analytical Reading Program dramatically increases students' scores in reading, writing, and math (advanced math questions are reasoning based).

- 14 to 21 hours of Analytical Reading can raise scores significantly
- 7 to 14 hours of grammar and essay writing make for better scores on the writing sections of both tests
- 7 to 14 hours of strategies will increase efficiency and *maximize* scores.

## Core Fundamentals: Reading, Writing and Math

The Common Core brought a great deal of attention to the weakness in California's school curriculum. Σngenius Learning Centers have always taught the fundamentals, so we are way ahead of the competition in preparing students for success with the Common Core curriculum.

With 21 hours available to you, your child can work on reading, writing, and math to catch up or get ahead. Allow us to test your child, **for free**, to help you place him or her in the right program(s).

## Essential Skills - Building Lifelong Study Skills

The skills students learn in this class will benefit them for a lifetime and no matter what stage of life you are in, setting goals, learning to prioritize, managing time, taking notes, and planning for projects are essential. But school does not teach these essential skills.

Our **Essential Skills Course** takes care of this problem!

This course covers those essential skills in 16 lessons. Students can use their remaining hours to improve their reading, writing, math, science, or test prep skills.

## Details

The Summer Pass allows for a maximum of 21 hours of tutoring from June 1st - August 31st. Total cost is \$995 (cost per hour is based on completion of all 21 hours). **To receive 21 hours, you must enroll by May 31st.** Students can come for a maximum of 2 hours per day. There are no make up sessions. Two or more **unexcused absences** will result in losing your scheduled spot. The Summer Pass is available for any child in any subject, but each child must have his or her own Summer Pass.

**Summer Passes are non-transferable.**
